

PPCC RES Webinar: Energy Market and Power Prices in Poland 2020

9th June 2020

09h30 Warsaw time

08h30 Lisbon time

In the last months, **power prices** in Poland are the reason for tremendous concerns among companies and organizations for which energy is a significant fixed cost in their daily operations. Is it possible to optimize it somehow? Can we plan efficiently the energy purchases in the long term so that its price does not become an obstacle for further development of our businesses? We will try to answer these and other questions during the "**PPCC-RES: Energy Market and Power Prices in Poland**" meeting. During the event, representatives of companies that are Members of the Polish-Portuguese Chamber of Commerce (PPCC) will share their thoughts on this subject and show whether they see any possibility of cooperation between them and other entities for which energy is an important element of the operational costs.
