**We have the honour of inviting you to a seminar
prepared specially for Japanese investors interested
in investment in Poland.**

On 10 May 2018, the Polish parliament passed new legislation to support investors: the Act on Support for New Investments, which came into effect on 30 June this year.

The Act introduces a number of new solutions, the most important of which is that investments are no longer restricted to special economic zones. Under the new Act, investments can be carried out throughout Poland and can still benefit from CIT exemption.

At the seminar experts from DZP, MUFG Bank, JETRO and PAIH will talk about the legal changes, the current market situation and the new support measures for foreign investors.
